Individual Contributions to the Group Project

Group: 4

Teammate (Name)	Contributions to Team	Commendations	Percentage of contribution
OOI WEI CHYEH	1) Coordinated group meetings and monitored project progress. 2) Combined all team members' work into the final submission.	Ooi Wei Chyeh did an excellent job leading the project flow, especially when he delegated the tasks for everyone throughout each sprint. – Shahridan Ooi Wei Chyeh did a commendable job organizing the final documentation, particularly when he ensured formatting consistency across all sections. – Danial	25%
DANIAL IZZUDDIN BIN MOHAMAD SHAHIR	1) Designed the system interface and created visual mock-ups. 2) Prepared design elements for the presentation slides.	Danial did a fantastic job designing the interface, particularly when he made last-minute layout revisions based on team input. - Ooi Wei Chyeh Danial did a great job enhancing the visual flow and colour scheme, especially while creating the slides. - Farah	25%
SHAHRIDAN NORIMAN BIN BAHARUD DIN	1) Developed the system prototype and integrated design elements. 2) Conducted testing and fixed technical issues.	Shahridan's implementation of the prototype was outstanding, particularly the way he resolved the interface function issue during testing - Farah Shahridan performed an excellent job troubleshooting the system, especially when he promptly resolved the navigation problem. - Danial	25%
NUR FARAH AQILAH BINTI NORAZAM	1) Conducted research and prepared system analysis documentation. 2) Organised project content including objectives, problem statement, and slide materials.	Farah did a fantastic job assessing the user requirements, particularly when she clarified the problem description for the team. - Shahridan Farah performed an excellent task of planning the presentation's flow, especially when it came to structuring the material to make it simpler to deliver. - Ooi Wei Chyeh	25%

All group members agree to acknowledge the above contributions. (<u>Yes</u>/No)

1. OOI WEI CHYEH

Role: Team Leader

Main Task:

1) Coordinated all group meetings and ensured every member understood their tasks.
2) Monitored the project progress.
3) Consolidated all group work into the final project submission.

Impact to Project:

1) Ensured the project ran smoothly and stayed on schedule.
2) Increased team productivity by giving clear instructions and reminders.
3) Helped maintain consistency and quality in all deliverables.

Collaboration Efforts:

1) Regularly communicated with team members.
2) Provided guidance and support whenever issues arose.
3) Encouraged teamwork and resolved conflicts.

2. DANIAL IZZUDDIN BIN MOHAMAD SHAHIR

Role: Designer

Main Task:

1) Designed the project mock-ups and visual elements for the KUNCHEE system.
2) Created the UI layout based on the team's requirements.
3) Produced graphics and visual materials for presentation.

Impact to Project:

1) Improved the aesthetic and usability of the system.
2) Helped the team visualize the outcome early in the project.
3) Enhanced the quality of the final presentation.

Collaboration Efforts:

1) Discussed and revised design ideas based on team feedback.
2) Worked closely with the programmer to ensure design matched functionality.
3) Contributed to group discussions and decision-making.

3. SHAHRIDAN NORIMAN BIN BAHARUD DIN

Role: Programmer

Main Task:

1) Developed the system features according to the project requirements.
2) Integrated the design into a functional prototype.
3) Tested the system to ensure smooth operation.

Impact to Project:

1) Delivered a working prototype that reflected the core idea of KUNCHEE.
2) Ensured the system's core functions met requirements.
3) Helped the team demonstrate a practical and usable solution.

Collaboration Efforts:

1) Actively collaborated with the designer and analyst for accurate implementation.
2) Fixed issues and improved features based on team feedback.
3) Shared progress updates during meetings.

4. NUR FARAH AQILAH BINTI NORAZAM

Role: Analyst

Main Task:

1) Gathered and analysed user requirements for the KUNCHEE project.
2) Conducted research and identified problems faced by users.
3) Prepared documentation including problem statement, objectives, and system scope.

Impact to Project:

1) Ensured the system was designed based on accurate and relevant user needs.
2) Helped create a strong foundation for system design and development.
3) Improved the clarity and direction of the project

Collaboration Efforts:

1) Shared findings with the team to support design and development decisions.
2) Worked closely with the leader to refine project requirements.
3) Helped teammates with content for slides and documentation
